**Locally Owned & Operated**  
[www.landshape.com.au](http://www.landshape.com.au)

At Landshape we specialise in helping you design your earthmoving project by transforming your vision into a reality.

We can assist you to create your project that best suits your budget and the space available whilst maintaining the natural aesthetic of the land.

Landshape is a locally owned and operated excavations business which has been operating within the South Gippsland and Bass Coast areas including Phillip Island and Wonthaggi since 2003.

Shed Sites - To any size requirements

Tracks / Driveways - Utilising various materials, including gravel, crushed rock and toppings

Customer service is a priority for our business both during and after completion of the works, this along with our high standard of work has meant our many satisfied customers have continued to utilise our services time and time again.

Our expertise covers a variety of earthworks including dam construction (both feature and stock dams), house & shed site cuts, tree & stump clearing and removal, horse arena construction, laser levelling, dam cleanouts and repairs, concrete & plastic pipe laying ( big & small ), and tracks/driveways.

House Sites - Cut to plans and or individual requirements

Commercial Earthworks - major or minor
